

VINFEN LAUNCHES LOWELL CARE PROGRAM

LOWELL CARE PROGRAM

Vinfen is offering an intensive care management program in the greater Lowell area for adults with mental health conditions or substance use challenges. Program services are provided by a community-based mobile care worker supervised by a licensed behavioral health clinician. The goal of the Lowell Care Program is to ensure that ALL people can access essential clinical services that support improved health and independence in the community and to promote mental health recovery.

SERVICES INCLUDE:

Support arranging medical, mental health, and substance use and recovery services

Assistance applying for benefits, financial resources, housing, food, and health insurance

Coaching and support to improve daily living skills

Transportation and accompaniment to medical and behavioral health appointments when necessary

Training to collaborate and communicate with providers

To be eligible for the Lowell Care Program, a person must:

- Live in OR receive services in the greater Lowell area (including Lowell, Billerica, Chelmsford, Dracut, Tewksbury, Tyngsborough, or Westford)
- Have a mental health or substance use diagnosis
- Be 18+ years of age
- Have MassHealth Limited, Safety Net, Medicare, Private Insurance, or no insurance; people with other types of insurance will be connected to our other Care Management programs.
